nationalgrid

Welcome back to school!

Dear Educator:

As part of our community outreach, National Grid is glad to offer you FREE energy-related science, safety, and environmental learning materials for students K-8. This offer is available to all schools within National Grid's service area.

These books support state and national education standards – so that you can devote class time to teaching important life skills

Ordering is easy, just complete the attached order card and drop it in the mail. Materials can also be ordered online at www.nationalgridus.com/education.

We don't accept phone orders.

Due to an overwhelming response last year, **orders are limited to 100 booklets per teacher, per school year**. Inventories may be limited, therefore orders will be filled on a first-come, first-served basis so be sure to order today!

Please be sure to visit our interactive Energy World website for additional energy-related resources and activities at **www.ngridenergyworld.com**

Thank you for using our services. We appreciate your commitment to energy education.
