

SolarWise Bonus Incentive Application

Residential New Construction Program

Instructions *(Please do not submit instructions page with your application)*

Considering “going solar”? Customers who participate in the Residential New Construction Program may qualify for a Bonus Incentive for their solar energy generation under the RI Renewable Energy Growth (RE Growth) program. Eligibility for the SolarWise Bonus Incentive is based on meeting all of the requirements of the Residential New Construction Program Tier 2 or Tier 3.

Existing solar PV installations are not eligible for the SolarWise Bonus. This Application must be submitted before, or with, the Interconnection Application.

SolarWise Bonus Incentive Eligibility Criteria for Residential New Construction Projects

	Standard - RI RE Growth Program	SolarWise Bonus Tier 1 Requirements	SolarWise Bonus Tier 2 Requirements
Home Efficiency Level	Less than 31% lower total energy use than RI reference home.	31% lower total energy use than RI reference home (RNC Program Tier 2)	45% lower total energy use than RI reference home (RNC Program Tier 3)
Solar Incentive Level	Standard Incentive*	Standard Incentive + 5%	Standard Incentive + 10%

* For the 2016 program year, the Standard Incentive for PV systems up to 10KW under RI RE Growth Program is 37.65 cents per kWh, with a 15-year tariff term. Incentive levels are also available for longer tariff terms or larger systems: www.ngrid.com/REgrowth.

SolarWise Application Process

1. Complete energy efficiency upgrades to meet your SolarWise Bonus Incentive Eligibility Criteria.
2. Complete the SolarWise Bonus Incentive Application.
3. Submit your **signed** SolarWise Bonus Application and applicable Energy Efficiency Required Documents to National Grid via email (do not include instruction pages):

EMAIL:

Subject Line: SolarWise RI

Email address: Distributed.Generation@nationalgrid.com

SolarWise Bonus Incentive Application – Residential New Construction Program

Instructions

1. Enroll in the RI Residential New Construction (RNC) Program.
Toll Free: 1-888-887-8841
www.nationalgridus.com/RI-Home/Energy-Saving-Programs/
2. Design and construct your home to meet RNC Tier 2 or Tier 3.
3. Complete Final Inspection through the RNC Program.
4. Complete and sign your SolarWise Bonus Incentive Application.
5. Email Application and Energy Efficiency Required Documents listed below to National Grid at Distributed.Generation@nationalgrid.com, subject line, "SolarWise RI".

Project Information	
Project Applicant:	ELECTRIC Account Number (10 digits) or Construction Work Request (aka "SRE") (8 digits):
Phone Number (Primary):	Low Income Rate A-60? <input type="radio"/> yes <input type="radio"/> no
Phone Number (Secondary):	Facility Address (home):
Fax:	City:
Email Address :	State:
Date of RNC Final Inspection: (actual or estimated date)	Zip Code:
Electric Service Company: National Grid	Anticipated Solar Installation Date (month/year):

Energy Efficiency Required Documents:

Required Documents	Customer Initials	For use by National Grid
SolarWise Bonus Incentive Application		
Home Energy Rating (HER) Certificate (submit upon completion of the project)		
Fuel Summary Report		
RNC Project Application (signed by owner)		

Total Annual End-Use Consumption for your new home _____(kWh)

Determine your SolarWise Bonus Incentive Eligibility:

RNC Tier 2 = SolarWise Tier 1

RNC Tier 3 = SolarWise Tier 2

I am applying for: SolarWise Tier 1 SolarWise Tier 2

I hereby certify that, to the best of my knowledge, all of the information provided in this Application is true:
