

**Notice of Transmission Service Request**

On March 2, 2011, National Grid and Bangor Hydro Electric received a transmission service request from a prospective customer. The prospective transmission customer has asked National Grid and Bangor Hydro Electric to keep its identity confidential while it pursues development of the planned wind projects for which it seeks transmission service. The prospective transmission customer has executed a Memorandum of Understanding with National Grid and Bangor Hydro Electric, collectively, under which the parties commit to negotiate a transmission service agreement pursuant to this request.
