

For Initial Settlement

National Grid posts historical initial ISO-NE settlement load and capacity data on behalf of Massachusetts Electric Company, Narragansett Electric Corporation, and Nantucket Electric Company. Updated postings are available within the first 5 days of the calendar month and include the following data:

- Historical, aggregated hourly load data (with and without losses) for default service and competitive supply for the period 08/01/2003 - present. Loads presented are the initial estimated loads as reported to the ISO-NE.
- Historical aggregated ICAP for default service and competitive supply for the period 03/01/2003 – present. ICAP presented are the initial estimated ICAP quantities as reported to the ISO-NE.
